

Minutes of Meeting(MOM)

Fourth Meeting with Client
Team Number - 39

Attendees

- Pravin Kumar (Mentor)
- Shivam Mittal (2022101105)
- Mayank Mittal (2022101094)
- Manan Garg (2022101109)
- Uday Bindal (2022114015)
- Bassam Adnan (2023121003)

Meeting Details

Date: February 23, 2024

Time: 15:30 PM

Duration: 30 minutes

Location: Maker's lab in Vindhaya A4

Topic: To discuss about the final design and to show the basic implementation of frontend and backend of our design.

Summary

1. Showed the current implementation of our frontend and backend involving MongoDB database and also showed the basic chatting feature working with the EMT Assistant and also took mentor's feedback on it.
[Information]

2. Confirmed about the view once and delete options and got the response that they are not supposed to be implemented, however we have to make the voice recording feature similar to Whatsapp application where the recorded voice can be deleted before being sent to the EMT Assistant by the doctor. [Task]
3. Mentor has provided us with the final design and we have to work according to that by distributing the tasks among us. [Task]
4. Cleared our doubts regarding UI interface and backend. [Decision]

Future Plans

1. Distributing the whole project equally among us and will start implementing and integrating the units side by side.
2. Learning GraphQL, React and MongoDB parallelly with implementation.
3. To improve the Chatbox and other frontend part which mentor had instructed to do and to show them in the next client meet.

Next Meeting Plan

Date : Most probably on 1st March, 2024 (Friday)

Goal : To show our next improved project design.
