Meeting Details

Date: April 17, 2024

Time: 2:30 PM

Duration: 20 minutes

Location: Maker's Lab

Topic: To take inputs of the client for further implementation and request him for end points of LAMA model.

Summary

1. We showed the client the implementation of Admin page which includes admin uploading files, deleting files, changing activity status etc. There were 3 different components regarding this which we showed him. **[Task]**
2. We clarified our doubts regarding the sidebar of admin page for which the client mentioned that only 2 options must be shown there instead of showing list of protocols and use the word document instead of protocol. **[Information]**

3. We showed the client our implementation of the document query chat where the response was temporarily obtained from gemini when a prompt is sent by the doctor.

[Task]

4. We will work on view file functionality of the admin page and replace the gemini api with the one given by the client. We are also supposed to modify the css of the chatbox.

[Decision]

Future Plans

1. Do the frontend changes in the admin page and modify the sidebar as mentioned by the client.
2. Implement the view pdf functionality for the admin page.
3. Once provided, fetch the response from the api provided by the client instead of gemini for document query.

Next Meeting Plan

Date : 19th April 2024

Goal : To gain insights on the api for LAMA models and show the presentation.
