Minutes of Meeting(MOM)

Sixth Meeting with Client
Team Number - 39

Attendees

- Pravince Kumar (Mentor)

- Mayank Mittal (2022101094)

- Manan Garg (2022101109)

- Shivam Mittal (2022101105)

Meeting Details

Date: 18th March, 2024

Time: 15:30 PM

Duration: 30 minutes

Location: Maker's lab in Vindhaya A4

Topic: To take the approval of the client about the final frontend design and to clear the doubts regarding the implementation.

Summary

1. Showed the current implementation of our frontend and backend involving MongoDB database and Apollo Server and also showed the modified chatbox working with the EMT Assistant,the sidebar and the Login-Signup page and also took mentor's feedback on it.
   [Information]

2. Mentor guided us how when we hover the cursor on any form, it has to be highlighted so that user can easily know his/her cursor location. So we have to implement this feature in our design. **[Task]**

3. Mentor has also guided us to use the CSS style and colouring as given in the Figma application and has to follow that given design for our project. [**Decision**]

4. Asked the mentor regarding the design of icons of patients when left list bar gets hidden by clicking on the button. Mentor told us that he will share its design soon. [**Information**]

5. Asked the mentor regarding the implementation of the criticality judgement. Mentor told us the basic steps to do judgement and he will finalise the final changes in the algorithm later. [**Decision**]

Future Plans

1. Will be improving and integrating the frontend part and side by side integrating it with backend of remaining part for the release 2.

2. Will me meeting Bhaskara sir for understanding the implementation and getting the idea of LAMA model and how we can improve and modify it to meet our project needs.

3. To do work on criticality judgement as guided by mentor and integrate it with our design to properly display the critical, moderate and minor cases with proper colouring.

4. To improve the frontend CSS as instructed by mentor and show them in the next client meet.

Next Meeting Plan

Date : Most probably on 26th March, 2024 (Tuesday)
Goal : To show improved part of frontend, criticality judgement and if possible the basic LAMA model working in the next client meet.
